SKILLS

- **Programming Languages** : C, Java, Python
- **Frameworks and Libraries**: Android SDK , XML, Django, REST API's, React.js, Next.js
- **CS Fundamentals** : Object-Oriented Programming, Data Structures and Algorithms
- **Database Management**: MySQL, SQLite, Firebase, PostgreSQL
- **Web Technologies**: HTML, CSS, JavaScript, Bootstrap, Tailwind CSS
- **Version Control**: Git, GitHub

EXPERIENCE

My Role: Intern - Part-time Android Developer *Uni Soft Corner* [Currently Working]

- **Enterprise Saving Circle App [Java | XML | Firebase | Razorpay SDK | Material Design]**
Developed an Android app with multi-role authentication, real-time Firebase synchronization, and Razorpay integration for secure subscription payments. Optimized UI using Material Design, RecyclerView, and animations for dynamic data visualization.

My Role: Freelance Lead Developer

- School Management System [Python | Django | Next.js | PostgreSQL | Razorpay | JWT] Developed a **full-stack multi-tenant School Management System** with role-based dashboards for Super Admin, School Admin, Teacher, and Fee Accountant. Implemented **JWT authentication, attendance tracking, and result management**. Integrated **Razorpay** for secure online fee payments with automated receipts. Built scalable APIs using **Django REST Framework, PostgreSQL**, and responsive dashboards with **Next.js**.

My Role: Freelance Lead Developer | Client: M.G.P.G. College Roorkee

- **CFM – College Fee Management System Django / Python / MySQL / SMTP Email Bootstrap**
Developed a multi-college fee management web platform with role-based login for Super Admin, College Admin, Accountant, and Clerk. Implemented multi-college access control, automated fee processing, and email receipt notifications using SMTP. Designed secure CRUD operations for students, courses, and fee records with Django ORM and optimized dashboards for each user role.

PROJECT

- **Dairy Management App [Java| XML| Android Studio| Firebase| Data Structures]**
Built an Android app to streamline milk delivery, payments, and user tracking for dairy businesses. Integrated Firebase for real-time data, authentication, and cloud storage. Added user dashboards, payment history, and automated monthly reporting features.
- **POS Billing System | Python |Django| Bootstrap |JavaScript** [View Project](#)
Built a mobile-responsive Point of Sale system with dual barcode scanning (hardware + camera), GST-compliant invoicing, and flexible customer management. Features include automated tax calculations, category-based inventory, discount management, and comprehensive reporting dashboard.

EDUCATION

- **Bachelor of Technology (B.Tech)**
Institute of Technology Roorkee , India [May 2022 - May 2026]

CERTIFICATES AND ACHIEVEMENTS

- Professional Android Developer from - Uni Soft Corner.
- Advanced Java Programming & OOP Concepts - Uni Soft Corner.
- Data Structures & Algorithms Specialization - Completed advanced coursework.
- C language course from- Uni Soft Corner
- Python language course from-Uni Soft
- Professional Web Development from-Uni Soft Corner
